C U P

freestanding basin

The art basin Cup, designed by Meneghello Paoletti Associati, is indeed a unique basin design inspired by a simple coffee cup. But this sink is anything but simple. This modern one-piece, freestanding washbasin boasts a cup-shaped base that flutes out at the top, forming the rim. And the looping handle makes a great towel hanger. This contemporary fixture comes in all white, or with a black exterior that contrasts the white interior with dramatic flair. The sink's deep bowl is functional while adding to the "cup" theme. Pair these washbasins with some cool wall-mounted hardware and a mirror, and your contemporary powder room or bathroom is complete.
